ABOUT THE EVENT

This Competition is conceived to promote & develop skills about the procedure followed by Trial Courts and testing the knowledge of the law students across the nation. It tests the law students both on the aspects of knowledge of law and facts. This is an effort of providing such a platform to law students so they can learn the basics of trial Court which in turn open a wider gate of one's overall learning experience. Most law school trial advocacy courses focus on tactical skills, though some integrate basic methods of strategic planning. Some academics have expressed disfavor with advanced strategic techniques because of the imbalance they create, especially against attorneys who are unaware of them.

Proponents of advanced strategic techniques argue that these methods are the only effective means to counter the already-existing imbalances in the system, as between indigent defendants and the state, and between working-class plaintiffs and well-resourced, wealthy corporations.

He told me that Simran left his house with Gurpreet Approx. at 6:00 PM.
