Dr. Ashutosh Saxena, MUJ

Shri Vinit Jain, MUJ

About the Seminar

Theme: The Future of Intellectual Property: Emerging Trends and Challenges in IPR

The seminar on The Future of Intellectual Property aims to explore how rapid technological and global changes are reshaping the way we create, protect, and commercialize ideas.

As we move into 2026, innovations like Artificial Intelligence, blockchain, Web3, biotech, and big data are challenging traditional concepts of authorship, ownership, and enforcement in IPR. At the same time, issues of cross-border infringement, data rights, access to medicines, and protection of traditional knowledge are putting pressure on existing legal frameworks.

This seminar brings together academicians, legal professionals, industry experts, policymakers, and students to discuss emerging trends, legal gaps, and policy responses in the IP ecosystem. Through panel discussions, paper presentations, and case studies, we will examine how IP can continue to drive innovation while balancing public interest, sustainability, and fair access.

AI and IP, digital assets & NFTs, biotech and green patents, data ownership, IP enforcement in the digital age, and the role of IP in startups and MSMEs, with a special emphasis on the Indian context.

The objective is to provide participants with practical insights and forward-looking perspectives to navigate the evolving landscape of Intellectual Property Rights.

About Mangalayatan University, Jabalpur

The Mangalayatan University has emerged as a well-known brand in northern India and is expanding fast all over the country with plans to be an international destination.

To cater to the ever-growing popularity of the prestigious Mangalayatan University (MU) of Aligarh, a new well-designed, lush green, sophisticated student-friendly campus has now been opened in Jabalpur. It is called the Mangalayatan University, Jabalpur.

The new campus is located at Barela, about 15 KM from city centre of Jabalpur. The new university is aimed at helping the students and scholars of Madhya Pradesh and the neighboring states in the central regions of India. The campus is well-connected and easily accessible.
